

Investment Objective & Process

The objective of the 8AM AQ Sustainable MPS 4 is to deliver long term capital growth with a Lowest Medium attitude to risk as defined by Dynamic Planner. Funds selected and used within the portfolio will be screened utilising the Morningstar ESG framework (with effect from June 2022 onwards). The ESG inclusion criteria can be found within the Investment Mandate.

In addition, the aim of the 8AM AQ MPS is to deliver consistent outperformance of industry benchmarks, within pre-defined risk parameters. Our quantitative fund screening helps to identify managers delivering outperformance and holds these positions until relative performance declines or a superior choice becomes available. Longer-term strategic asset allocation is set based on stochastic analysis delivered by Dynamic Planner whilst the 8AM investment team provides tactical oversight.

This investment process is augmented by independent and repeated risk review provided by Dynamic Planner.
